

William Kenyon®

TORNADO®

A Patented Interstranded (P.I.)
Three Strand manufactured with Engineered yarns

- **Constructed of Engineered Yarns**
 - Impregnated in yarn form for superior abrasion resistance
 - Heat-set for reduced elongation
- **P.I. Three Strand construction**
 - Maintains a round profile
 - Solid construction
 - Excellent tail support in open draws
 - Maintains a tighter nip in the sheaves
 - Full sized – designed and manufactured to be full diameter under tension
- **Ease of splicing using the standard William Kenyon® “Rolling” splice**
 - Strands are color coded to assist in putting up the splice correctly
- **Available in red, white and green**
