

Kenbest® carrier rope accessories

KENBEST® CARRIER ROPE CART

Introducing a rope cart designed with the paper mill atmosphere in mind. Heavy duty construction produces a rope cart with superior safety standards built-in, all steel tube and mig welded with a two-part epoxy oven baked finish. The 1.75 inch (4.5 cm) center shaft will not destroy the reel heads and the bearing grade nylon support blocks give a smooth pay-out. A built-in friction clutch controls free wheeling and minimizes looping, allowing for a safer rope installation.

Single and double reel carts will accommodate all standard rope reels up to 38 inches (97 cm) O.D. and 23.5 inches (60 cm) wide. Options are available at an additional cost.
