KENBEST® PULPABLE BARRIER TAPE

Contamination from plastic barrier tape in the refining process is a serious problem that may effect machine up-time. Our pulpable barrier tape is constructed of 100% cotton and, based on test results using the TAPPI UF-252 useful method test, is completely dispersed in the refining process.

Kenbest® pulpable barrier tape is IDEAL for wood yards and construction sites in the paper mill where a temporary barrier is required.

- Standard package length - 50 yard rolls.
- Available in red & black and yellow & black.
- Stocked in packages of 20 rolls.
- Minimum order - 20 rolls.

KENBEST® FID

- The only tool necessary for splicing Kenbraid "Easi-Splice®" carrier rope.
- The basket holds the rope tight, no tape required.
- Follow the splicing directions for braid with, or without, a core.

KENBEST® "SAFETY" LOCK-BACK KNIFE

- Positive "lock" in the open position.
- Slim design.
- High quality steel, maintains an edge.
- Sharpens easily.
